EMERGENCY PHONE #: 1-800-535-5053

Section I - Product Identification
Product Class: Blend
Product Code I.D.: MS-214
Trade Name: Anco Tannic Acid Plate Etch

Section II A - Hazardous Ingredients

<table>

*(Skin) Absorption may contribute to the overall exposure to this material. Take appropriate measures to prevent skin contact.

Section III - Physical Data
Boiling point: 212 F (Represents boiling point of lowest boiling material)
Evaporation: <1 (ether=1)
Vapor Density: >1 (air=1)
% solid: 27.85
Weight per gallon: 8.49 (theoretical)
V.O.C. lbs gallon: 0 (theoretical)
Section IV - Health Information
EYE CONTACT: Based on the presence of component 1 product is presumed to be moderately irritating to the eyes.
SKIN CONTACT: Exposure may produce skin irritation.
INHALATION: Exposure may produce irritation to the nose, throat, respiratory tract, and other mucous membranes.
INGESTION: Based on the presence of component 1 product is presumed to be moderately toxic.
SIGNS AND SYMPTOMS: Eye irritation—pain, tearing, reddening and swelling. Skin irritation—swelling, rash and redness. Respiratory irritation—runny nose, sore throat, coughing, chest discomfort, shortness of breath and reduced lung function. Gastrointestinal irritation—sore throat, abdominal pain, nausea, vomiting and diarrhea.
AGGRAVATED MEDICAL CONDITIONS: Preexisting skin, eye and respiratory disorders may be aggravated by exposure to this product.
OTHER HEALTH EFFECTS: None Recognized

Section V - Emergency and First Aid Procedures
EYE CONTACT: Immediately flush eyes with water for at least 15 minutes. Seek medical attention if any symptoms persist.
SKIN CONTACT: Remove contaminated clothing and shoes. Wipe excess from skin and flush with water using soap if available. Seek medical attention if irritation occurs. Do not reuse clothing until thoroughly decontaminated.
INHALATION: Remove victim to fresh air and treat symptomatically. Provide oxygen if breathing is difficult. Give artificial respiration if the victim is not breathing. Seek prompt medical attention.
INGESTION: Dilute with liquid unless the victim is unconscious or very drowsy. If vomiting spontaneously occurs, keep the victim’s head below the hips to prevent aspiration into the lungs. Consult a physician, hospital or poison control center and/or transport to an emergency facility immediately.
NOTES FOR PHYSICIAN: The following component-specific information may contain contradictions, and is intentionally included to give the attending physician specific information about the individual components of the blend.

Section VI - Fire and Explosion Hazards
FLASH POINT: > Not Applicable
EXTINGUISHING MEDIA: Not Applicable
UNUSUAL FIRE AND EXPLOSIVE HAZARDS: Not Applicable

Section VII - Reactivity
STABILITY: Stable
HAZARDOUS POLYMERIZATION: Will not occur
CONDITIONS AND MATERIAL TO AVOID: Based on the presence of component 1 avoid oxidizing materials and alkaline materials.
HAZARDOUS DECOMPOSITION PRODUCTS: Carbon dioxide, carbon monoxide and unidentified organic compounds may be formed during combustion.
Section VIII-Employee Protection
RESPIRATORY PROTECTION: Use ventilation as required to control vapor concentrations—at least 10 air changes per hour are recommended for good general room ventilation. If exposure exceeds the PEL/TLV, use the appropriate NIOSH-approved respirator.

PROTECTIVE CLOTHING: Wear safety glasses, goggles, or a splash shield to prevent eye contact. Contact lenses should not be worn. Wear appropriate gloves and protective clothing to prevent contact with skin and clothing.

ADDITIONAL PROTECTIVE MEASURES: Eye wash fountains and safety showers should be available for use in an emergency.

Section IX-Environmental Protection
SPILL OR LEAK PROCEDURES:
LARGE SPILLS: Evacuate the hazard area of unprotected personnel. Wear appropriate respirator and protective clothing. Shut off source of leak only if safe to do so. Dike and contain. If vapor cloud forms, water fog may be used to suppress; contain run-off. Remove with vacuum trucks or pump to storage/salvage vessels. Soak up residue with an absorbent such as clay, sand or other suitable material; place in non-leaking containers for proper disposal. Flush solutions as above.

SMALL SPILLS: Take up with an absorbent material and place in non-leaking containers; seal tightly for proper disposal.

WASTE DISPOSAL: Observe all federal, state, and local regulations regarding proper disposal.

Section X-Additional Precautions
After contact with product container, wash with soap and water before eating, drinking, smoking or using toilet facilities.

Under the provisions of Title III, Section 313 of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR, Part 372, the following components may be subject to reporting:

None

The following chemical(s) are listed on the California Proposition 65 List:

None
